Unosorb Filter

Features

The UNOSORB Anesthetic* Gas Filter consists of small grain activated charcoal for optimal adsorption of anesthetic gases

* Isoflurane, Halothane or Sevoflurane.

- The UNOSORB filter is suitable for Animal Anaesthesia gas removal
- A disposable canister, containing activated charcoal
- The UNOSORB canister can be connected directly to the scavenging tubing (f.i. UNO Gas Exhaust Unit).
- The charcoal absorbs organic anaesthetic gases e.g. Sevoflurane, Isoflurane and Halothane.
- The weight of the canister must be monitored so that it can be replaced before it becomes saturated, once saturated any waste gases will simply be exhausted into the working environment.
