Portable Parapinto Slings (Large Animals)

Features

Exclusively available, this newest innovation in comfortable restraint is collapsible and lightweight. It can be quickly & easily folded up for trouble-free transport or storage in facilities with limited space or mobile veterinarians.

Humane, user-friendly, portable restraint for your micropigs, minipigs, dogs, goats, lambs and other small to medium sized animals. Truly portable the complete sling ships in a carton

101x25,4x15cm weighing 9kg so it can be shipped inexpensively using your preferred courier service.

The portable Panepinto sling is supplied with instructions for assembly, storage and handling.

Deep V shaped openings at the front and back for unimpeded access to the animal allowing of easy ampling or instrumentation. Set up and dismantling is simple requiring no tools. Clevis pins lock the frame in place, for storage either fold closed and hang on hooks or use the storage bag, included with your purchase. To maintain a light weight with maximum strength the frame is constructed from square tubular stainless steel. The sling is manufactured from a robust coated canvas fabric. The sling is machine washable. All openings on the sling are trimmed with a cotton jersey fabric for comfort. Velcro straps closing over the back provide for quick and secure restraint while maintaining adjustable fit for individual animals.
