Carfil Lepus Nutrix

Description

Carfil lepus nutrix has been specially developed for rabbits in the period after giving birth. The result-oriented breeder of rabbits knows that his nurses can seriously weaken after they have given birth. Deficiencies in specific vitamins and amino acids have a negative influence on the overall condition. This creates problems with milk production and results in reduced growth in young animals, who also have less resistance. A higher dropout is the result. Furthermore, fertility problems may occur, causing the animals to become pregnant again much later.

Ingredients

Cereals, grain products, fiber-rich products, oilseed products, products of sugar production, vegetable oils, fructo-oligosaccharides, food acids, vitamins.

Composition

Nutritional value		Minerals		Vitamins per Kg	
Crude protein	13,32 %	Calcium	0,40 %	D3	1320000 I.E/kg
Crude fat	10,04 %	Phosphorus	0,38 %	B1	7,50 mg
Crude fibre	7,65 %	Magnesium	0,17 %	B2	7,50 mg
Crude ash	3,90 %	Sodium	0,04 %	B6	7,50 mg
Moisture	11,24 %	Potassium	0,83 %	B12	0,021 mg
				C	90,00 mg
				K3	9,00 mg
Amino acids		Trace elements (mg/kg)		E	144,41 mg
Lysine	0,48 %	Manganese	39,78 mg	Folic acid	7,58 mg
Methionine	0,20 %	Zinc	44,11 mg	Biotine	2,95 mg
Meth. & Cystine	0,22 %	Copper	5,12 mg	Nicotinic acid	150,00 mg
Threonine	0,41 %	Iodine	0,34 mg	Choline chloride	651,85 mg
Tryptophan	0,14 %	Selenium	0,12 mg		
Arginine	0,59 %	Cobalt	0,21 mg

Application

Supplementary extruded feed to support the resistance, vitality and fertility of nurses around and after giving birth. Rich in fats for more energy, rich in fructo-oligosaccharides for better bowel function, rich in vitamins and amino acids for better milk production, a better overall condition and a smooth new pregnancy.

- Broad support for the overall resistance
- Better milk production
- Smooth new pregnancy
- Prevents weight loss during the suckling period
- Promotes retention of maximum number of eggs
- Supported inning of fertilized egg cells
- Extruded product, crunchy and dust-free

Carfil lepus nutrix is composed of a combination of vitamins E, K3, C, B1, B2, B3, B6, B12, folic acid and nicotinic acid and various necessary amino acids such as methionine and lysine. Lepus Nutrix is not pressed, but extruded and is therefore deliciously crunchy and dust-free. It is easily absorbed and can be provided individually or per couple. Lepus Nutrix is intended for nurses after giving birth, but is also suitable as support for disappointing results or recovery of diseases.

Carfil lepus nutrix is an additional feed for rabbits. Specially formulated to increase the resistance of the nurse and the litter after giving birth.

Dosage

15 grams per nurse per day.

Recommended usage

Provide a continuous period of 10 days.

Packaging

Carfil Lepux Nutrix
Bag of 20 kg
30 bags per plastic europalet
Irradiation on request

Shelf life

18 months after production date
Cool and dry storage < 18°C
